

Many of our nations Veterans are suffering from many health related issues caused by the lack of proper oral hygiene and dental care. The Veterans Smile Program is raising awareness about this growing Veterans dental / health crisis.

Our mission is to assist our Veterans in need to obtain FREE critical dental care. They served, they deserve dental care too. The Veterans Smile Program improves our Veterans physical health, mental health and overall quality of life after service. The Veterans Smile program gives our nations Veterans back so much more than just a SMILE. This Veterans dental program is endorsed by the National Women Veterans United Org. and AMVETS Department of Illinois.

To find out if you may be covered under the the VA dental program, please refer to the Department of Veterans Affairs (VA) for coverage information.
